Extra Interlayers for Cable Clamps

NOTE

All cable clamps are delivered with the appropriate number of interlayers, however additional interlayers may be ordered as needed.

ARTICLE	CABLE	Pieces in box
CL00-0012-A1	1/2"	100
CL00-0078-A1	7/8"	100
CL00-0114-A1	1 1/4"	100
CL00-0158-A1	1 5/8"	100

Mounting Cable Clamps

1 Put the clamp around the holder with the cables inside

2 Prepare the interlayers by bending them

3 Insert the interlayers between the cables and the holder

4 Tighten the clamp using a wrench or hex key

Note: The above photos illustrate the general installation procedure. Please visit www.exirtelecom.com for complete instructions on how to install cable clamps from Exir Telecom.
