

# Comsite Solutions

Shelters can be supplied in customized formats from single racks to modified sea freight containers. With full environmental control, systems can be provided with TV and radio transmitters complete with air conditioning, heating, voltage regulation, generators, solar power, towers and antennas. Extremely strong and rugged construction provides a fast and secure deployment to remote locations or for unattended sites. Systems are designed for severe weather conditions and temperature variations of -20 to +50°C and with optional remote monitoring, site parameters and security can be continuously maintained via the internet or link equipment.

**City Cabin**

Dim. inside  
L = 276cm.  
W = 220cm.  
H = 225cm.  
Dim. outside  
L = 299cm.  
W = 243cm.  
H = 259cm.  
  
Weight without equipment 955kg.

**Town Cabin**

Dim. inside  
L = 217cm.  
W = 200cm.  
H = 195cm.  
Dim. outside  
L = 243cm.  
W = 220cm.  
H = 226cm.  
  
Weight without equipment 715kg.

**Metro Cabin**

Dim. inside  
L = 197cm.  
W = 137cm.  
H = 202cm.  
Dim. outside  
L = 220cm.  
W = 160cm.  
H = 245cm.  
  
Weight without equipment 530kg.
